

PolyVision® Professional Development Completes Your Best-in-Class Solution

PolyVision® is committed to the success of your interactive whiteboard implementation. We understand your need for a comprehensive 21st Century Learning Environment solution. PolyVision professional development is curriculum focused for expanded teaching styles. PolyVision can support your professional development needs in many ways; learn as a group or individually, choose from on-site to web-based trainings allowing you to learn at your own pace.

On-Site Fee Based Training:

- Level 1: One full-day session including an introduction to the interactive whiteboard, its available tools and resources and integrating the interactive whiteboard into the classroom curriculum. This session includes examples of transforming existing lesson plans to interactive lessons, hands-on practice to create and modify lessons, Webster® whiteboard tools, and an introduction to Easiteach® content tools, sample lessons, and activities.
- Level 2: Two to three full-days' training, which includes Level 1, as well as an introduction to the advanced features of Webster whiteboard tools, comprehensive use of Easiteach content toolbars to create and modify lessons within Easiteach, advanced features of Easiteach, and examples of how to utilize saved class notes.
- Level 3: Three or more full days, including Levels 1 and 2, as well as a more in-depth individual approach to creation and presentation of lessons and activities. This session includes continued support via webinars, demos, and access to virtual mentors.
- Custom: PolyVision will develop customized training sessions tailored to the client's curriculum needs. Sessions may also be developed around school investment in other selected software applications.

Please note:

- Each session is tailored to the level of education the teachers provide to their students.
- Sessions may be Primary, Intermediate, or Secondary education, cross-curricular or by core content area (Math, Science, Language Arts or Social Studies) as desired by the client.
- Each full-day session may be two consecutive half-day sessions in the same day. (Reduced content)
- Level 2 and 3 training sessions of three or more days are provided in two separate training trips. (*We suggest at least 2 weeks between day 2 and day 3 or 4 to allow teachers time to practice their learning.*)
- Recommended class size is 15-20 participants.

Cat. No.	Professional Development	Suggested Price ¹
PD L11	Level 1 Full-day session	\$1,699
PD L22	Level 2 Two-day session	\$2,499

¹ Per-diem fees may be adjusted based upon project size or total commitment for professional development by the school or school district.

For web-based training offerings and support, see the reverse side.

PolyVision® Professional Development Completes Your Best-in-Class Solution

Web Based Options:

Customizable Webinars

Choose from a wide variety of webinars spanning from basic instruction on using your board to creating lesson plans that will amaze both you and your students. Webinars to increase knowledge on the interactive whiteboards tools and Easiteach content tools and resources are offered throughout the week, to anyone, free of charge. Each webinar is customizable to the levels of use and goals of the participants.

“Live Chat”

During scheduled times, PolyVision users can log-on to a “Live Chat” with a PolyVision Training Development Specialist. The specialist will be available to answer all questions regarding basic technical concerns, usage of the board, or useful hints and ideas on successfully using the board within the classroom. All are welcome!

Virtual Mentors

The ability to have someone at your fingertips is priceless! That option is available through our “Virtual Mentor” program that allows PolyVision users to contact one of our Training Development Specialists at any time to ask questions and/or ask for help in lesson plan creation and integration. Our specialists are available to facilitate your lesson plan creation while working with you on curriculum development for your interactive whiteboard.

Demo Videos and T.V.

Want to learn about lesson plan development and board usage in your slippers in the comfort of your own home? PolyVision and RM Education have provided this “comfy” experience through their instructional videos and T.V. episodes. Both companies offer information that walks you step-by-step through everything you'll need to know. All of the videos and RM T.V. are available for download, for free, at any time of the day.

Ordering:

- Terms: Net 10 days
- Invoicing: Upon completion of each training session or portion thereof.
